Access

Student access at school and at home helps us understand how "plugged in" learners are during the school day. Students without access to technology in school are less likely to engage in 21st century learning. Ease of access is a precursor to shifts in student outcomes.

Future Ready Student

85%

of KY parents believe their child's school encourages technology use for teaching and learning

92%

of KY parents believe technology use in class can enhance student learning

Strong online skills, such as confidence using shared digital workspaces, have been correlated with increased collaboration in the classroom.

Students can think about concepts and interactions in more varied ways with the affordances of multimedia and multimodal representations.

55% find these tasks easy to perform

12% said the task was impossible

Student reported frequency of playing a game on a computer or phone

85% at least once a week

5% reported never doing so

FOUNDATIONAL SKILLS

Student reported ease of sending an email

81% find these tasks easy to perform

5% said the task was impossible

Student social network use by network

Student reported research methods

Students who have access to computers and the Internet are more likely to use technology more frequently and have better technology skills. These skills are a precursor to the use of digital creativity, digital collaboration, digital communication, and critical thinking in the classroom and while learning.

Students can also personalize the use of their technology and leverage great access to engage in anytime, anywhere learning on topics of their choice.

61% of students are allowed to use personal mobile devices in class for academic reasons

21st Century Teacher

32%

of KY teachers believe they are highly knowledgeable regarding Digital Citizenship skills

Teachers with strong foundational skills are able to handle administrative classroom tasks easily, including attendance and grading. Further, teachers who are confident about their ability to use foundational skills are often able to use these skills when learning new online and multimedia skills.
